Recommendation Letter  
for Ms. Tamar Chachibaia

17 07 2006 წ.

In 2003-2004 Ms. Tamar Chachibaia has afforded opportunity to participate in new course "Citizens' legal rights advocacy and implementation in the sphere of health care" in Tbilisi Iv. Javakhishvili State University's Health Management Department of Medical Faculty during my occupation at vice dean's position. She has represented collection of works, which was offered as part of teaching materials for this course.

Ms. Tamar Chachibaia is the author of publications: "Bioethics and Medical Ethic"; "Bioethical Regulation of Medical Legislative Normative Acts in Georgia"; "Legal and ethical aspects of the reform of Psychiatry".

Ms. Tamar Chachibaia participated in the new curricula ("Citizens' legal rights advocacy and implementation in the sphere of health care") preliminary course development and implementation. Course has considered as innovative, representing interdisciplinary modern approach, dynamically connecting bioethics, medical law, criminal and civil code for the understanding of human rights. As a result, course has established at Health Management department with assistance and approval of law faculty and submitted to be taught to medical students, as well as to future lawyers. Course introduction was started in the 2<sup>nd</sup> semesters of academic year 2003-2004 and completed successfully. Ms. Tamar Chachibaia represented lectures to juridical and medical faculty students (approximately 350-250 students attended). New curricula has considered as the most appropriate for incorporation in teaching system in multi-profile high education university by authorities of law and medical faculty. As a result approved materials have issued by Tbilisi State University Press - ISBN 99940 38 13 3 (2005) - "Bioethics and Medical Law" (Authors T. Chachibaia, D.Gordeladze).

I verify, that Ms. Tamar Chachibaia was appointed as appropriate candidate in new course initiation within the project: "Citizens' legal rights advocacy and implementation in the sphere of health care". Formerly she has practical experience in defense of patients' rights, has participated in the workshops for doctors in places of imprisonment. She was responsible for preparing of newsletters "Patients' rights". Ms. Tamar Chachibaia is experienced teacher as well. She has received excellent responses from the colleagues and approval of this beginning. She received high scores at pedagogical skills by questionnaire performed among students.

Ms. Tamar Chachibaia is motivated and organized person, she has been considered eligible in the teaching process in the new course. I am giving her my best recommendation.
